Conveyor 22®
Clean Electrical Engineering

Made in Sweden

Black Line ECS-121

Electric conveyor for most manufacturing industries

Manufactured in high strength steel and anodized aluminum. Protection class IP62. Suitable for metal industry such as stamping press and die casting; plastic and robotic handling, etc.

Max distributed load	30 kg
Max weight for tray	12 kg
Stroke	20 mm
Feeding speed (mechanical adjustable)	4-8 m/min
Sensor controlled shutdown warning	M12 connector
Start/Stop function can be controlled	M12 connector
Motor and overload protection	built-in
Noise level	60 dB(A)
Energy consumption	0.15 kW
Electricity	110-230 VAC, 50-60 Hz or 24 VDC
Protection class	IP62
Dimensions (LxWxH)	318x138x68 mm
Weight	6.3 kg
